

Imperial Business Partners Programme 2017-18

Inspiring insights from business leaders and world-class researchers

Megaprojects OCTOBER 2017

THE NEW DEAL, HS2, Crossrail - physical infrastructure projects are the means by which nations live and thrive. But, with every new proposal, they are becoming more complicated and more expensive. Join us and 5 academic and industry guest speakers to discuss just *how* a selection of these projects are being executed.

An executive insight dinner

Quantum Technologies 21 NOVEMBER 2017

THE ENORMOUS potential of quantum theory has remained untapped for over a century but feasible industry applications now glimmer tantalisingly on the near-horizon. Join us to find out where and when these could become a reality. Keynote from Professor Sir Peter Knight FRS, leading expert in quantum optics and Government science advisor.

An executive insight dinner

Systems That Learn and Human Understanding FEBRUARY 2018

DELVING DEEP into the implications of IoT, ubiquitous sensing and the already blurred frontier of human consciousness, this conference brings together the work and minds of two academic heavyweight institutions from two sides of the Atlantic. **In collaboration with the Massachusetts Institute of Technology (MIT).**

An Imperial Business Partners conference

Women & Venturing MARCH 2018

IN 2014, Babson College's Diana Report found that businesses with all-male teams were more than 4x as likely to receive VC funding compared to teams with at least one woman. Is a female Jeff Bezos anytime soon just fantasy? **As part of Women@Imperial week.**

An executive insight session

The Best Of Enterprise Week APRIL 2018

MEET our home-grown female entrepreneurs, social innovators and venture capitalists as we bring you the highlights from 2018's Enterprise Week. Past winners' tech has included low cost ultrasound devices and waterproof concrete. **In collaboration with the Enterprise Lab.**

An executive insight session

Green Growth & You MAY 2018

IN RECENT decades issues of sustainability have successfully transitioned from peripheral interests to central strategic concerns. This event discusses the next steps of translating policy to industrial practice. **In collaboration with the Grantham Institute for Climate Change and the Environment.**

TF2038: SUMMER 2018

WHAT WILL the world look like in 2038? Will Saudi Arabia's power be from majority solar sources? Will automation lead to unmanageable unemployment figures? Will we have Brexit-ed?

Join us to speculate at the annual Tech Foresight conference. There will be regular opportunities to help shape the theme throughout the year too. **In collaboration with Imperial Tech Foresight**

Your membership includes:
